IT'S A PLEASURE TO MEASURE - WITH BAHCO

Our history goes back more than 120 years, but rarely have we entered a new product segment with so much enthusiasm.

Everyone needs to measure

- whatever their trade.

Furthermore, everyone wants
comfort, accuracy and ease-ofuse. With short and long tapes
plus a measuring wheel, and
Metric/Imperial versions, our new
tool range covers all measuring
applications. What's more, all
products enjoy that distinctive
Bahco look – a design that
stands out from the crowd.

POCKET TAPES

Accuracy

Measuring devices are classified by three standards of accuracy: Class I (the most accurate), Class II and Class III (wooden rules). The accuracy class is permanently marked on the blade. Class I tapes are manufactured for very specific, high-accuracy applications, and when official regulations require precision and certification.

Class	Length / Tolerance							
	1m	2m	3m	5m	8m			
1	0.2mm	0.3mm	0.4mm	0.6mm	0.9mm			
II	0.5mm	0.7mm	0.9mm	1.3mm	1.9mm			
III	1.0mm	1.4mm	1.8mm	2.6mm	3.8mm			

Locking system

Manual locking requires pushing a button to lock/unlock the blade. Automatic locking only requires pushing to retract the blade. The Bahco automatic locking system is patented.

Average standout standards

Blade width	*************************************	Horizontal stand-out	Vertical stand-out	Vertical stand-out (Back-reading)
13mm	o 2 3	1.17m	1.70m	
16mm	o 92 3	1.55m	2.20m	
19mm	0 0203	1.85m	2.90m	3.60m
25mm	0 02 03	2.40m	4.30m	6.00m

Stainless steel

Stainless steel tapes are washable thanks to stainless steel blades and internal parts.

Cleaning the tape surface prolongs its life. Stainless tapes are suitable for use in even the harshest conditions.

Magnetic tip

Magnetic tip tapes are perfect for the building and construction trade, which is why they are mainly sold with 25 mm blade-width tapes. Magnetic tips are also great for hanging tapes from a roof. Endusers can use the tape graduations to set up a rotary laser, and make simple measurements at any place in a room. Magnetic tip can also be used as a pick-up tool.

Blade structures Pocket tapes

Carbon steel

- 1. High-grade, carbon-steel blade.
- 2. De-burred edges.
- High-contrast, baked-paint background.
- 4. Permanent, clearly-printed graduations.
- 5. Non-reflective, nylon-coated 'diamond pattern'.

- 1. Stainless steel blade.
- 2. De-burred edges.
- 3. High-contrast, baked-paint background.
- 4. Permanent, clearly-printed graduations.
- 5. Non-reflective, double-baked nylon-coated 'diamond pattern'.

Double-sided printing
For extra precise marking and line
drawing.

Easier to measure tall walls and ceilings.

LONG TAPES

Accuracy

Class Le			ength / To		
	10m	20m	30m	50m	100m
H	2.3mm	4.3mm	6.3mm	10.3mm	20.3mm
Ш	4.6mm	8.6mm	12.6mm	20.6mm	40.6mm

Tip type

Type A

The state of the s

Type B

Blade structures Long tapes

Carbon steel

- 1. High-grade carbon steel blade.
- 2. De-burred edges.
- 3. High-contrast, baked-paint background.
- 4. Permanent, clearly-printed graduations.
- 5. Clear nylon coating.

Fibreglass

- 1. 16,000 glass-fibre strands.
- 2. Permanent bonding.
- 3. Permanent, clearly-printed graduations.
- 4. Double nylon coating.
- 5. Non-glare finish.

MTG Series

MTG Series pocket tapes feature a simple one-component body with Class II high-quality blade, smooth spring action, positive locking button and stainless steel belt-clip.

- 1. Manual locking system holds blade firmly.
- 2. Even body length (80 mm / 90 mm) for easy internal measurements
- 3. Ridges around edge provides easy-to-hold-grip.
- 4. Integrated belt-clip for convenient use.

MTB Series

MTB Series pocket tapes feature a twocomponent body made of elastomere and ABS, patented automatic blade lock, durable non-reflective nylon-coated blades, stainless steel blade tip, and combined belt- and button-clip. The MTB series range includes 3 tapes with magnetic tip and reverse print blades.

- 1. Automatic blade locking for quick and easy measurements
- 2. Even body length (80 mm / 90 mm / 100 mm) for easy internal measurements.
- 3. Durable, wear-resistant nylon-coated blade.
- 4. Non-reflective blade for better readability.
- 5. Impact-absorbing rubber for better grip and greater comfort.
- 6. Integrated belt- and button-clip.
- Magnetic tip¹ for ceiling measurement and magnetic
- 8. Reverse blade printing¹ for longer vertical measurements. (1) M-models only

Class I

Class I accuracy MTB Series pocket tape is developed for specific end-users/distributors. It is made for the Metric measurement system only and features a two-component body made of elastomere and ABS, automatic blade lock, durable non-reflective nylon-coated blades, stainless steel blade tip, and combined belt- and button-clip. The Class one tape is easily recognized by its silver button and white blade.

- Class I high-accuracy white printed blade, controlled by precise equipment.
- 2. Automatic blade locking for quick and easy measurements.
- 3. Even body length (90 mm) for easy internal measurements
- 4. Long-lasting, wear-resistant nylon-coated blade.
- 5. Non-reflective blade for better readability.
- Impact-absorbing rubber for better grip and greater comfort.
- 7. Integrated belt- and button-clip.

MTS Series

It's not just the look that makes the MTS Series stand out. This is a true heavyduty Class II tape, developed for harsh conditions. Internal parts of stainless steel enclosed in a two-component elastomer/ ABS body make it fully water-resistant. Its durable, non-reflective stainless steel nylon-coated blade is printed on both sides. A magnetic blade tip, patented automatic locking and combined belt- and button-clip complete the picture.

- 1. Rust-proof, washable with all parts in stainless steel.
- Automatic blade locking for quick and easy
- Even body length (90 mm / 100 mm) for easy internal measurements.
- 4. Durable, wear-resistant nylon-coated blade.
- 5. Non-reflective blade for better readability.
- 6. Impact-absorbing rubber for better grip and greater comfort.
- Integrated belt- and button-clip.
- Magnetic tip for ceiling measurement and magnetic pick up.
- Reverse blade printing for longer vertical measurements.

LTG Series

- 1. Long winding handle for easy blade retrieval.
- 2. Comfortable grip fits snugly in the hand.
- 3. Belt-clip for convenient use.
- 4. Nylon-coated steel tape.
- 5. De-burred edge steel tape to reduce cracking and corrosion

LTB Series

- 1. Comfortable grip fits snugly in the hand.
- Case can be opened for easy cleaning of tape body and tape.
- 3. Folding rewind crank for fast retrieval.
- 4. Nylon-coated fibreglass tape.
- 5. 16000 glass fibre strands for high tensile strength.

LTS Series

LTS is an open reel tape giving a longer fibreglass tape length. Available in 30, 50 and 100 metre lengths.

- 1. Nylon-coated fibreglass tape.
- 2. Fibreglass displays highest tensile strength.
- 3. Shock-absorbing rubber bumpers.
- 4. Heavy-duty ABS frame.
- 5. Steel guide rollers to enable smooth twist free re-winding.

Measuring wheel

- Adjustable handle for different user-heights and for easy storage.
- 2. Kick stand. (Only MW-250)
- 3. Accurate measurement with easy-to-read numbers.
- 4. Rubber-coated wheel for accurate non-slip measuring.
